\$Hehehe - Solana memecoin focuses on two major factors :

WHAT'S A MEMECOIN ??

A memecoin is a type of cryptocurrency that gains popularity primarily through online social media trends. Alike traditional cryptocurrency memecoins comprises of community support and technology advancements

Market Timing & Sentiment Analysis:

MARKET SENTIMENT AND TIMING ENTRY AND EXIT POINTS. INVESTORS TRACK SOCIAL MEDIA TRENDS, COMMUNITY BEHAVIOR, AND NEWS EVENTS TO ANTICIPATE PRICE MOVEMENTS. THIS MIRRORS TECHNICAL ANALYSIS IN FINANCIAL TRADING, WHERE TRADERS USE DATA TO PREDICT TRENDS AND SEIZE OPPORTUNITIES.

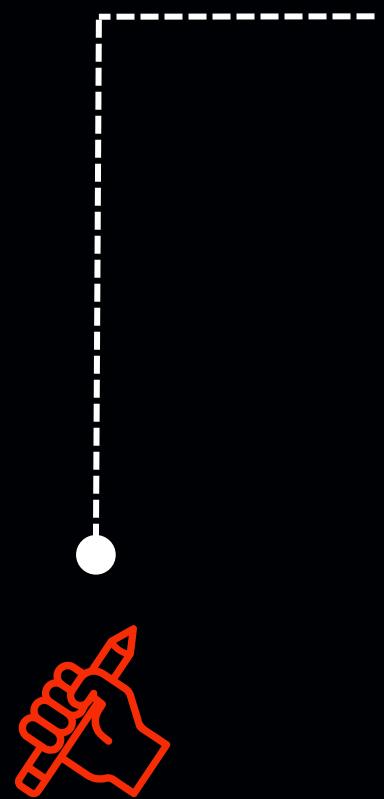

Data-Driven Quantitative Analysis:

MEMECOIN MARKET IS GOOD FOR QUANTITATIVE TECHNIQUES LIKE ARBITRAGE OR ALGORITHMIC TRADING. COMMUNITY RELYS ON REAL TIME DATA TO TRACK TRADING VOLUMES, WALLET MOVEMENTS, AND PRICE TRENDS ACROSS EXCHANGES.MODELS ARE USED TO OPTIMIZE TRADES, HEDGE POSITIONS, OR SIMULATE MARKET CONDITIONS

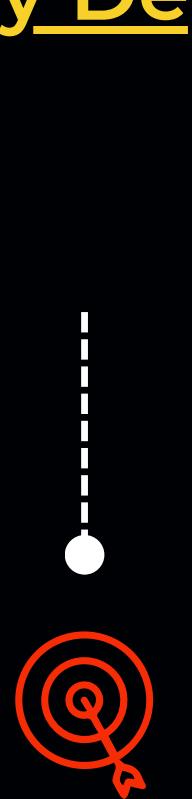

PROJECT OVERVIEW

Key Departments of \$HEHEHE Memecoin
includes:

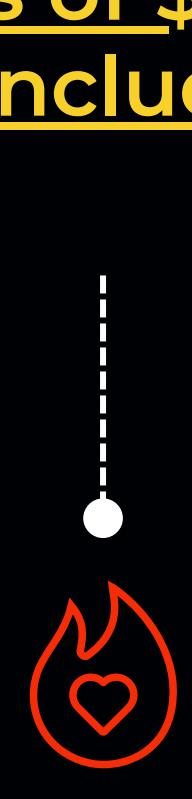

Supply

TOTAL SUPPLY - 1 BILLION TOKENS
PRESALE - 30%
MARKETING - 10%
TEAM - 5%
LIQUIDITY POOL - 55%

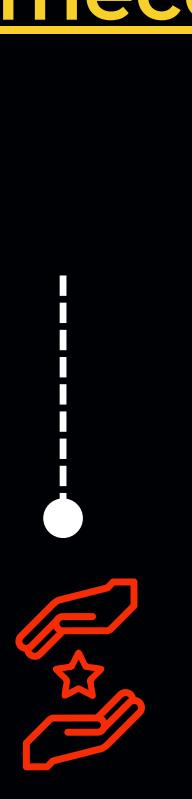

Goals

\$HEHEHE IS DEVELOPED WITH COMMON GOAL ON COMMUNITY BUILDING , MARKET AND TECHNOLOGY INNOVATION IN A FUN WAY

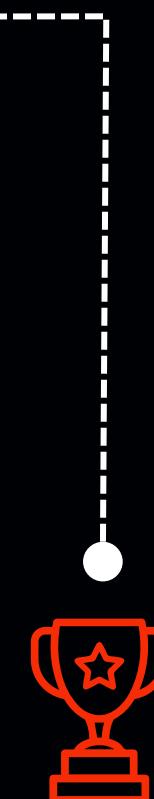

Transparency

BIGGEST PROBLEM OF MEMECOIN MARKET IS PROBABLE SCAM - WE DECIDED TO ADD 55% OF FUNDING TO LIQUIDITY POOL AND LATER BURNING THE LP WHICH WILL TAKE CONTROL AWAY FROM OWNERS HAND AND WILL ENSURE FAIR VALUE IN MARKET

Financial Modeling

Just like energy sector - **Financial forecasting and Risk assessment was performed using previous memecoin data and Tokenomics design was prepared as shared in supply section.**

Holders and Community Engagement

At \$HEHEHE we made room of clients , regulators called “The Kat Club” - to discuss and push community forward with continued social media engagement

PROJECT TIMELINE

January, 2024

Performed Data Analysis on Shiba-Inu and Modelled the findings.

February, 2024

Work on animation started and finalized the design.

March, 2024

Launching chain analysis started and ended with Solana as decided chain.

April- July, 2024

Socials delivered with “The Kat Club” and started building community and whitepaper

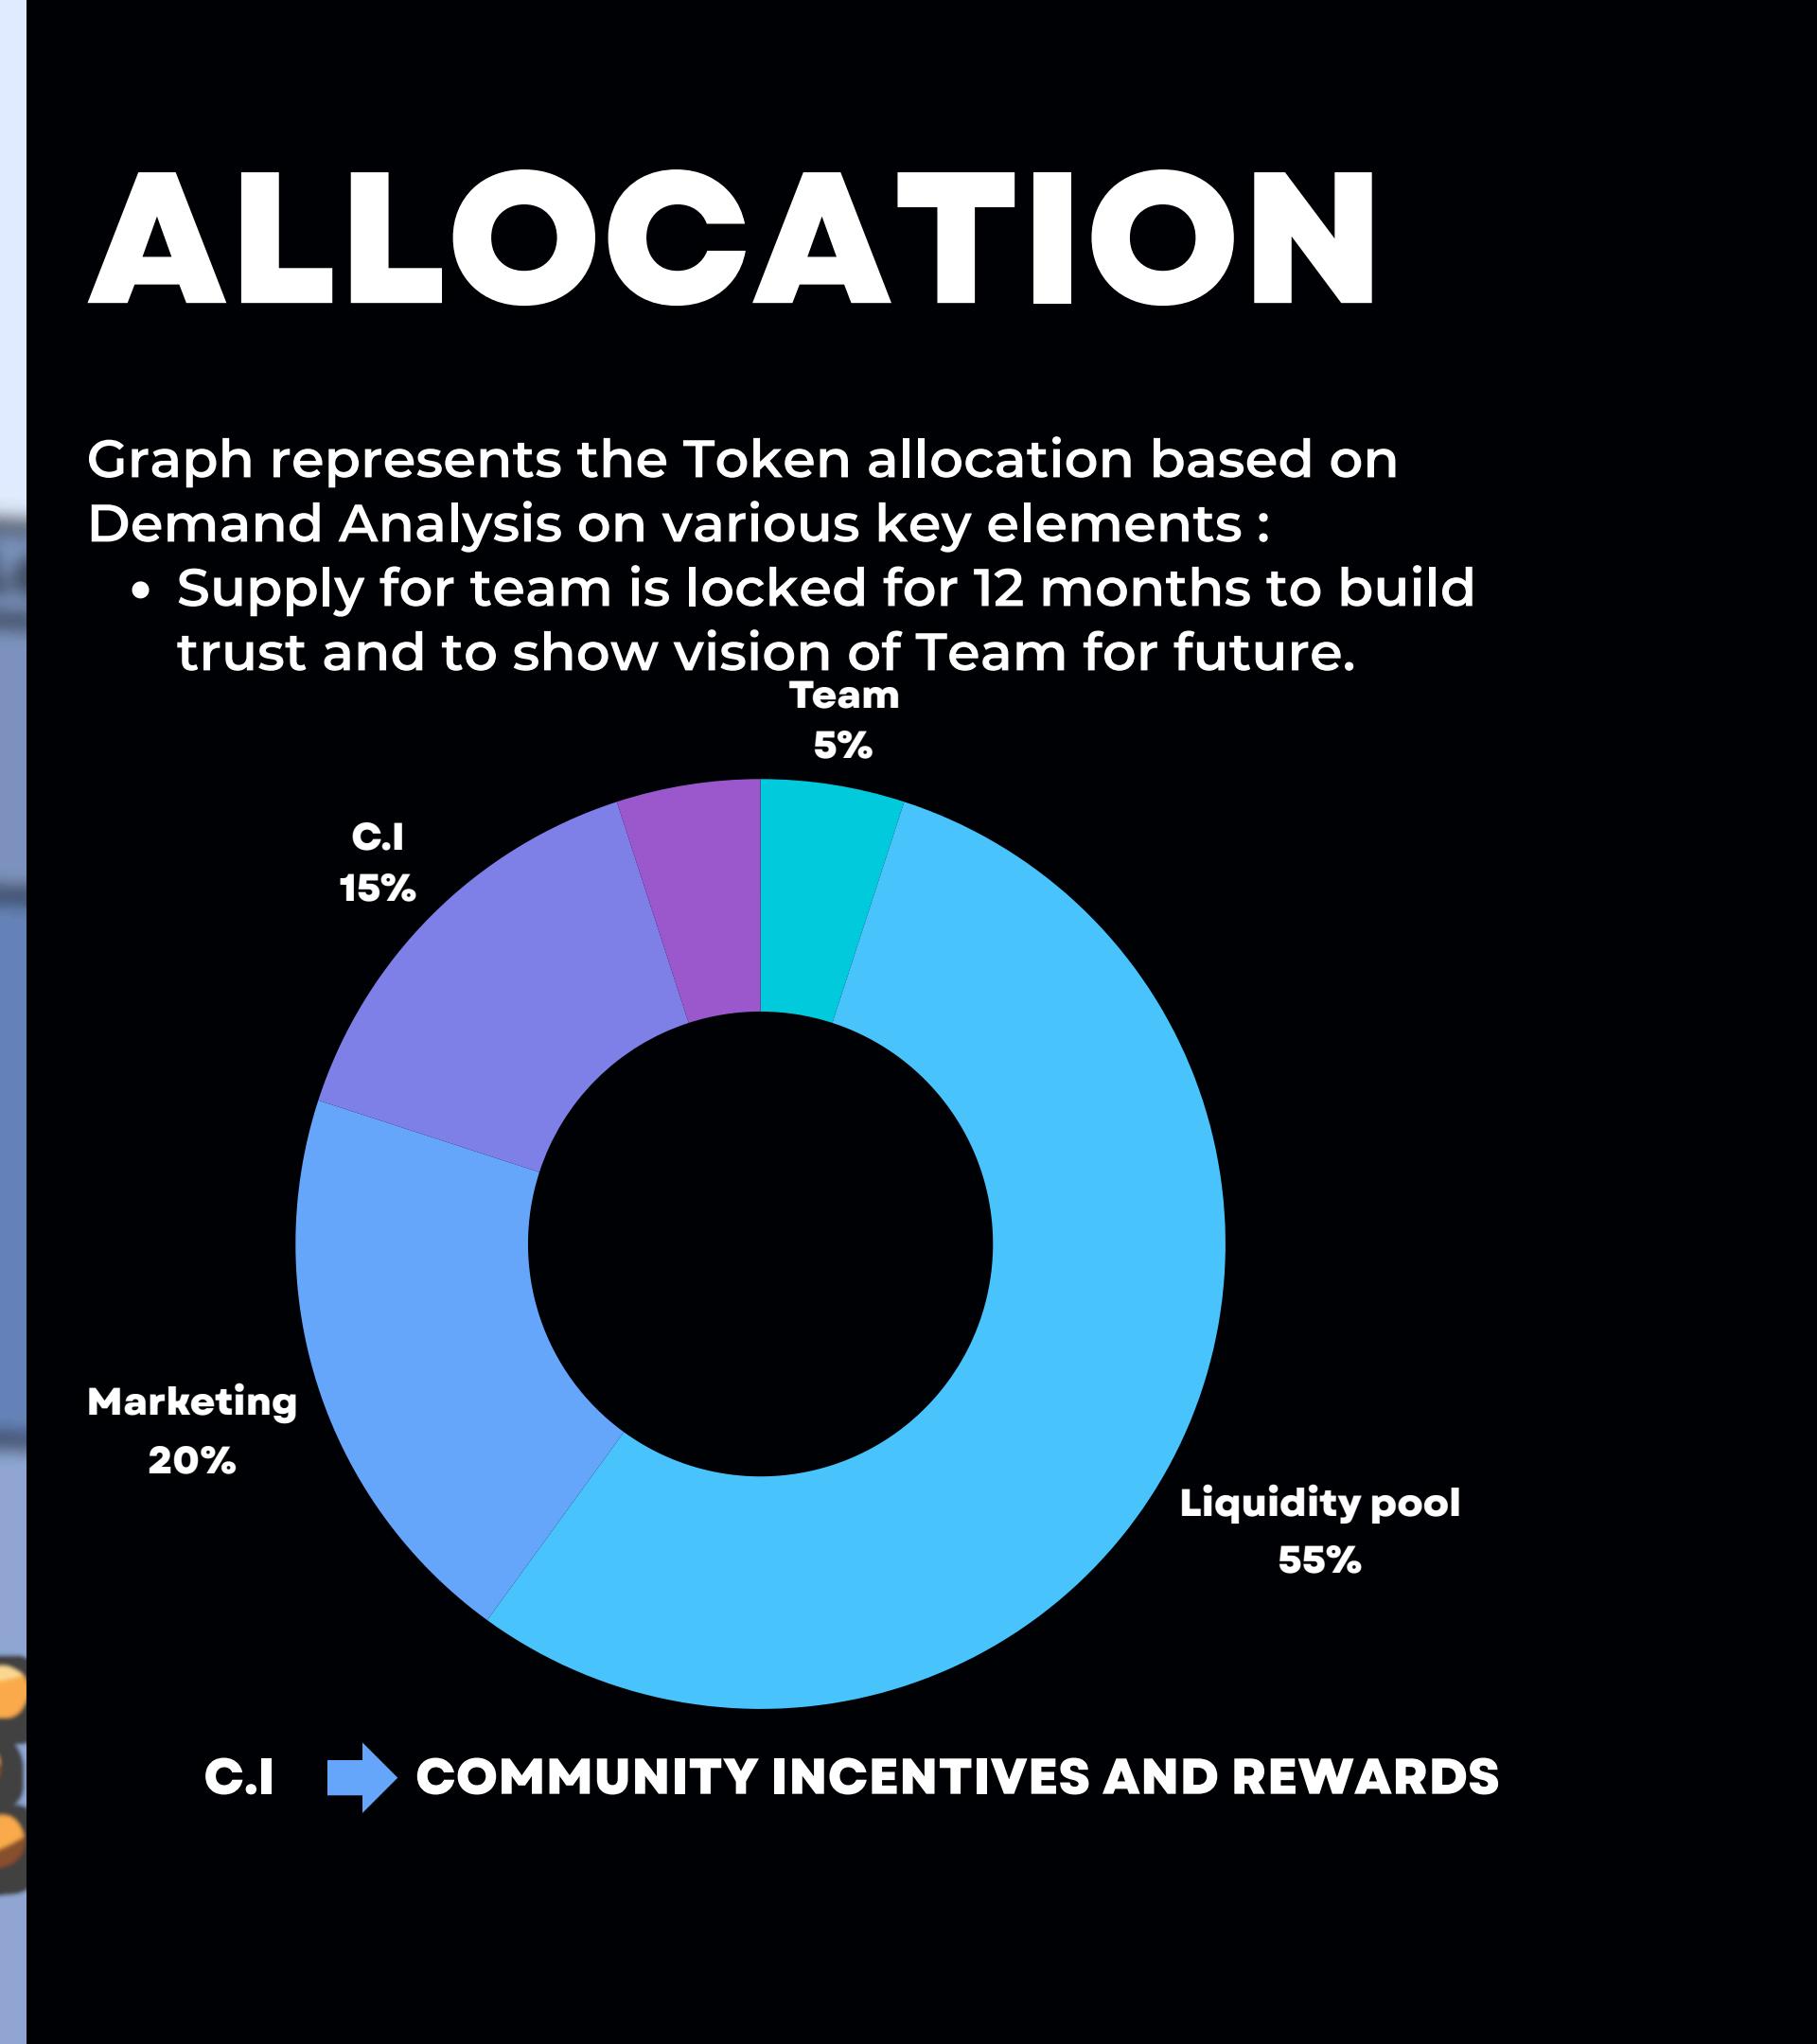

Present

Waiting for funding rounds to end and further pushing MarketCap & Volume.

SHEHEHE

SOLUTION TO PROBLEMS:

***21000 Memecoins were launched from October 2023- Dec 2023**

Data Cleaning(EDA)

Tracking transaction data, wallet movements, token distribution, and price history is crucial. This mirrors EDA

Data from Top Players in market in last 3 months was analysed
Token Distribution was decided on basis of these results.

***Txn Fee on Solana is around 2\$ which is 20x less than ETH/BTC**

***Called out community to hold the tokens in fun way by trolling paperhands(early sellers)**

Identified Trends

After Data Cleaning I studied patterns in market of Volume vs Token price on diffrent chains.

And Choose Solana as the launching chain bec:

- Higher traction compared to SEI
- Low gas fee in Txns.

Hypothesis Testing and Correlation

Tested Hypothesis of whether a social media called "Jeet-Out" will increase token demand. Analyzed relationships between factors like social sentiment, trading volume, and price

PLATFORMS INDICES

Supported Platforms data	Cost of Launch	Monthly Volume	Monthly Visitors	Initial Liquidy Pool
Pumpfun.in	4\$	\$10M	70,000	6.2 SOL = 900\$
Moonshot	11\$	\$2M	14,000	4 SOL= 600\$
SunPump	4\$	\$5M	35,000	3.8 SOL= 550\$
DEXSCREENER (Whales)	800\$	\$225M	2,80,000	Coins transfer here

SOCIAL MEDIA PRESENCE

Official Trailer gave a sneak peek into the exciting world of HEHEHE\$ – a community-driven, high-speed cryptocurrency with a total supply of 1 billion tokens.

Official Website consists of detailed tokenomics and whitepaper with contact address and social media handles.

New Telegram Bot added to track real-time price & volume. Also this bot will help user farm the \$HEHEHE before launch. Bot consists of :

- Referral earning
- Play 2 Earn
- Tasks earning

Various original memes and animations by community members
